One day, +/-75 mile dual sport trail ride on back country roads, woods roads and trail. Rated medium challenging with even more e-z outs, especially in the first section. Gas Stop (50 mile range) on the route. Larry Heron's award winning BBQ lunch, including homemade desserts from the Women of the Church.

REQUIREMENTS

USFS APPROVED SPARK ARRESTOR. Leave the stock baffles in those converted XR's, CRF's, TTR's, WR's, EXC's, etc. Excessive noise is the leading cause of land closures to off-highway vehicles, and we don't want to make any new enemies. Tags must be mounted on the rear fender and all lights must work. Please remove any numbers from the number plates. Bring your own gas as the gas stop and lunch will be at the staging area. Bring your route sheet holder. D.O.T. approved knobby tires highly recommended.
